## What is it all about?

The aim of this project is to contribute towards improving the health of disabled people in North West Wales by giving individuals the opportunity to participate in an adventurous activity.

Following the open day, families, individuals, groups, schools and local outdoor activity centres will be able to access the adaptive equipment through the Beacon Climbing Centre.

This project has been made a reality through collaboration between The Outdoor Partnership and the Beacon Climbing Centre and made possible as a result of funding from People's Postcode Trust, Children in Need and Sport Wales.
